

Assemblages

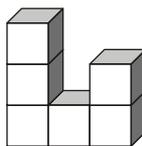

On dispose de quatre sortes de pièces fabriquées en collant des petits cubes entre eux :

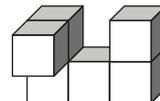

pièce A

pièce B

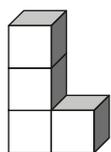

pièce C

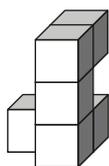

pièce D

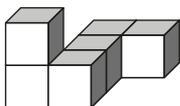

Parmi les solides ci-dessous, un seul n'est pas une des pièces A, B, C, D. Lequel ?

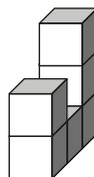

①

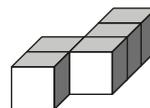

②

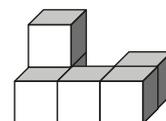

③

④

⑤

⑥

Une pièce A et une pièce B ont été assemblées pour former des solides plus grands.

Faites apparaître la pièce A et la pièce B en utilisant **deux couleurs** différentes comme dans l'exemple :

Exemple :
