

# Pliage

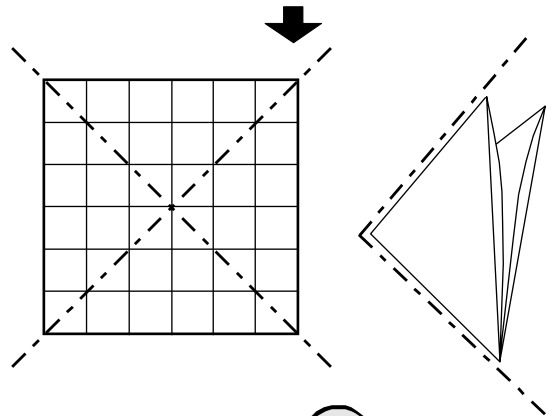

1. Dans une feuille de papier quadrillé, on découpe des carrés (6x6) que l'on plie deux fois selon deux axes de symétries perpendiculaires :

comme ça

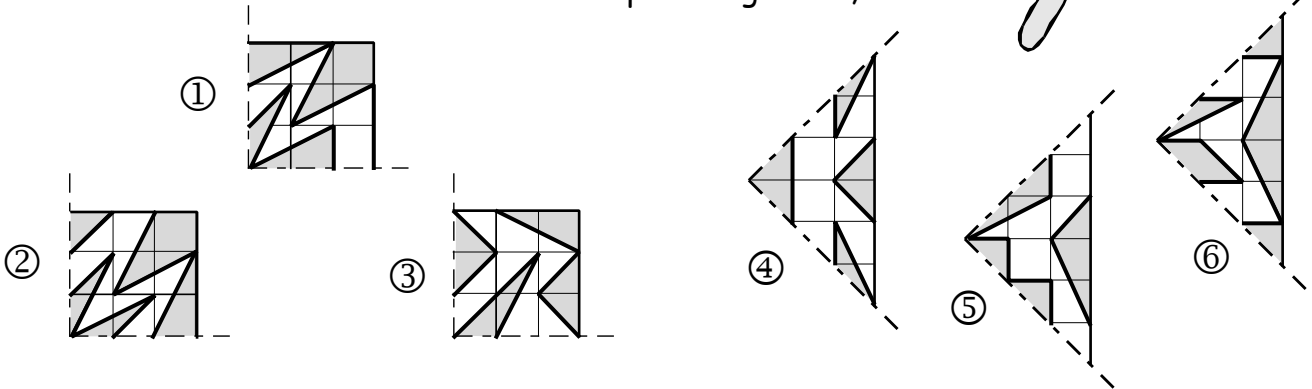

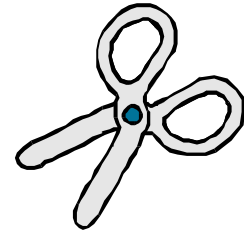

ou

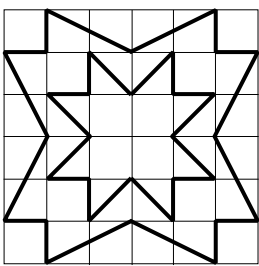

comme ça

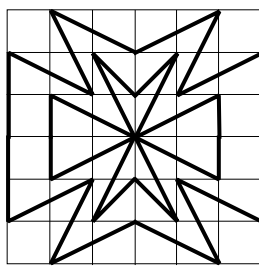

2. On dessine des motifs, on découpe suivant les traits, les quatre épaisseurs de papier, on enlève les parties grisées,

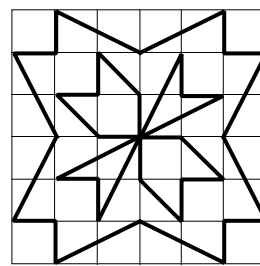

3. On déplie pour obtenir des "napperons" comme ceux-ci :

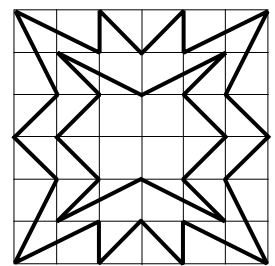

A

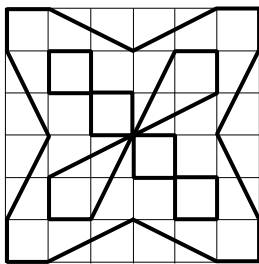

B

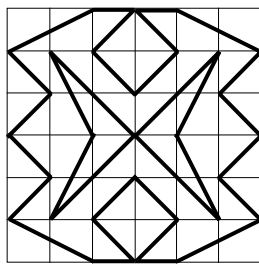

C

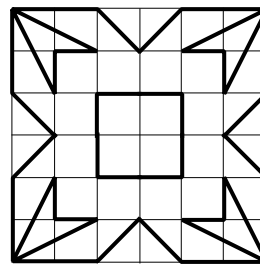

D

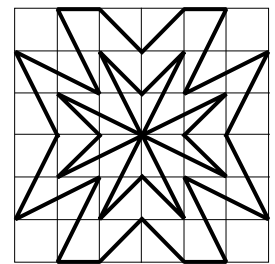

E

F

G

H

Associe à chacun des 6 découpages proposés, le napperon correspondant.
